Gettysburg, PA 17325-7245

To whom it may concern,

Berkshire Mountain Search & Rescue Team, Inc., MA, hereafter referred to as BMSAR, has petitioned the FCC for issuance of public safety frequencies for emergency search and rescue operations. BMSAR is an accredited, fully trained and equipped wilderness search and rescue team that is on the Massachusetts Search and Rescue Resource List and which is called upon by this department to provide wilderness search and rescue services.

As the Civilian Search and Rescue Coordinator for the Massachusetts State Police, I fully support and endorse BMSAR's application for assignment of the requested radio frequencies

Sincerely,

Lt. Robert H. Leverone, #1360  
Tactical Operations  
Commander, S.E.R.T.
